Autonomy and Culture in Kant's philosophy

—The possibility of the critical theory of culture in Kant's philosophy—

Itizo OMORI

The purpose of this study is to pick up “the critical theory of Culture” from the idea of Culture (Kultur) in Kant's philosophy. This study focus on “*Pedagogy*” and “*Religion within the limits of reason alone.*”, which has argumentative background in his own day. Because, these two books commonly argued about the duality of Culture (Kultur). Culture is considered as a requirement for the perfection of Education and the Symbol of the invisible church (the company based on religion of reason), but at the same time, Culture destroys the potentiality of it. This duality is caused by the order reversal of Moral and Culture. In this point, We can find out the critical theory of culture.
